Airmen pose with care packages packed by MITS

Deployed Airmen Receive Troopster Care Packages from MITS

Al Udeid Air Base, Qatar August 15, 2024 – US Air Force Airmen deployed to Qatar were among the 350 military personnel who recently received a Troopster care package, courtesy of MI Technical Solutions (MITS). Last month, 35 plus MITS employees packed the care packages containing snacks and drinks for active-duty military members deployed overseas. Some of the 350 packages made their way over to Al Udeid Air Base and were distributed to various military personnel.

MI Technical Solutions truly values and appreciates the opportunity to provide support to deployed military members. In a previous Troopster pack-out event in 2022, MITS sent 250-300 care packages overseas. Some of those packages were delivered to the unit of a deployed MITS employee. These pack-out events not only provide a team building and fun experience for MITS employees but serve as a way to give back to our military community.

Troopster supports all branches of the Armed Forces, deployed service members, military spouses, and families with resources and unique care packages. Please visit <https://troopster.com> to find out more!
