## The Military Times Selects MI Technical Solutions for 2025 Best for Vets Employers List

**Chesapeake, VA November 17, 2025** – The Military Times named MI Technical Solutions, Inc. (MITS) on this year's Best for Vets Employers List! The Military Times publishes their annual Best for Vets Employer List to highlight companies and organizations making efforts to recruit and retain the military community. This year, the list includes 245 companies and organizations across the country. MITS is honored to be on this listing because the company truly values the experience and dedication the military community brings to the company. Currently, 63% of our employees are veterans! MITS frequently attends military job fairs, posts on military specific job boards, and strives to maintain relationships within the veterans, National Guard, and Reservists communities. There has been much success in the full time hiring of SkillBridge candidates (a program applicable to active service members while experiencing industry work life). Plus, MITS understands the importance of this community, so they are flexible and offer various benefits to currently serving military reservists. MI Technical Solutions, Inc. is proud to be among the nation's Best for Vets Employers!
